TESTIMONIALS

"My husband and I think of the Crane School Districts as a privilege to be able to send our three children to. Since the open enrollment and bus route, my kids have the opportunity to go to school in a rural setting with great teachers and great parents. We, as a whole, are able to get together on our children's behalf for academics, events, sports, disciplinary issues, etc. We work as a team for the best outcomes. Due to small classroom sizes, my children get the one-on-one time with their teachers, and they've formed a great relationship with them all. We are appreciative of all the staff at the Crane School Districts for all of their hard work, kindness, safety, and hands-on learning." The Young Family

"The Crane School has been such a blessing to our family. The classes are small, so the children get more one-on-one attention. The Crane School meets the child where they are at academically, helping them to grow according to their needs. Due to being a smaller school, the parents have a chance to get involved. In return, the school becomes more of a family-like environment. Crane has surpassed our family's expectations in so many ways, and we are so very blessed to have the opportunity to have our children there." The Bakers
